

Bonneville County

August 2012

Work Force Trends

Population

By population, Bonneville County is the fourth largest in the state. It grew 26 percent from 83,907 in 2001 to 105,772 in 2010. The county has experienced steady growth in the last decade with an average population increase of 2,203 a year for the past five years. The largest percentage increase was 3.12 percent between 2006 to 2007.

Besides being a medical and retail hub for a large geographic area, diversity and an emphasis on economic development help the area grow. The 2000 census classified Bonneville and Jefferson counties as the Idaho Falls Metropolitan Statistical Area. Idaho Falls, the county's largest city, is the fourth largest city in the state with a 2010 population of 56,813. The next largest city in the county, Ammon, more than doubled its population, growing from 6,187 in 2000 to 13,816 to be one of the state's fastest growing cities.

Labor Force & Employment

Bonneville County unemployment remained below the national and state rates for the last decade. The annual unemployment rate for 2011 was 7.1 percent. The county is economically stable and cooperates with one of the state's largest employment sites, the Idaho National Laboratory. Economic diversification has been a top priority and has contributed to low unemployment rates.

The civilian labor force increased by over 19 percent during the decade. Unemployment rates began to climb as the national recession took hold. Due to many insulating factors, rates have remained well below the national and state averages. As a regional health care and retail hub, the consumer and client bases extend beyond surrounding counties to Wyoming and Montana. A skilled and dedicated work force is credited with attracting new

businesses and helping others expand.

Professional developments like Taylor Crossing on the River and Snake River Landing continue to emerge in the metropolitan area, complementing revitalization efforts for Idaho Falls' historic downtown. New, larger restaurants, more medical facilities and specialists and new technology from the national laboratory further economic growth. France-based AREVA has proposed a multibillion-dollar uranium enrichment plant for the area.

Labor Force	July 11	July 12

Nonfarm Payroll Jobs for 2011

Covered Employers

Trade, utilities and transportation account for more than a quarter of Bonneville County's jobs with trade by far the largest. Education and health care are next followed by government. The national laboratory makes professional and business service jobs a major economic component. Leisure and hospitality is growing as the county becomes better known.

Average employment increased over 2,900 between 2001 and 2011 while average annual wages increased by over \$5,300.
